## In-Home Child Care Resource Sheet

This resource includes information to help you find in-home child care. An in-home caregiver may be a high school or college student, a professionally trained nanny, an au pair, or another person who has experience caring for children.

There are no regulations for in-home child care in Michigan unless the caregiver receives payment from DHS' Child Development and Care Program. Caregivers receiving these payments are required to follow the Day Care Aide Requirements. Go to <http://www.michigan.gov/childcare> to learn more about the State's Day Care Aide Requirements and other child care programs in the State of Michigan.

Some agencies that make placements of in-home caregivers may require a nanny to have experience or training but most parents looking for in-home child care will have to do the all of the screening themselves including checking references and back-ground checks on the caregivers they hire. If you want referrals to licensed childcare (care not in your home), call Kent Regional 4C at 616.451.8281, extension 230 or go to <http://www.4cchildcare.org> and use the online referral form to submit a request for a list of licensed child care providers.

This information is a resource and referral list and is intended for informational purposes only. This list is not an endorsement or recommendation of any caregiver, program, service, or resource, nor is it a complete list.
