- Ask someone to trace your clean hands and one bare foot on construction paper with Colored Pencils. Sit down while your foot is being traced so you don't lose your balance. Sometimes it tickles!
- 3. Cut out your paper hands (angel wings) and foot (angel body) with Scissors.
- 4. Use a Glue Stick to attach the hands to the heel of the foot. Spread them like wings. Color your angel.
- 5. On more paper, draw an angel's head to match the size of its body. Draw a face and cut it out. Attach the face to the heel of the foot.
- 6. Draw, color, and cut out hair, a halo, and a name banner. Glue them to your angel.
